GP Productions was established in 2003 to assist international production filmmakers who wish to conduct film and video productions in Panama. During this time has collaborated with many international production like, Cycling the Americas, BBC, (UK), Die Panamericana, Norddeutscher Rundfunk, (NDR), Germany, etc. In addition, GP Productions offers planning other functions such as: Transportation, accommodation, budgeting, logistics, etc. We can effectively perform preparation and coordination of every aspect of film production.

GP Productions, administers a large database which include local talented professionals, in all areas of audiovisual production, from gaffers, makeup artists and talent to location managers, cameramen and sound engineers, that continues to grow over time from accumulated work performed. Most of these collaborators are fully bilingual.

Logistic Management and Production Coordination

GP Productions acts as the liaison between the main production office and the targeted chosen location, whose objective is to prioritize information for expeditious handling by the producer and production manager.

Scouting & Location Management

Identify potential locations in accordance to scripts or story boards

Visiting and photographing locations appropriate to budget in order to assess suitability

Making preliminary enquiries regarding access, parking, and location use

Researching locations thoroughly to ensure no disruptive noises or events likely to occur during the shoot

Negotiating access and formalizing contracts with location owners

Organizing permissions for access, e.g. with local authorities and the police

Local Talent and Services Management

Personnel Management

Location Manager
Production Assistants
Actors / Extras
Make up Artist
Wardrobe Artist

Rental Agreements

Locations
